EVACUATION.

The President Has Not Yet Com-
pleted His Plans

FOR THE LAST DAYS OF HIS STAY
IN WASHINGTON.

Apartments for himself, Mrs. Cleveland,
Mrs. Folsom and Colonel Lamont and
Family Have Been Secured at the Vic-
toria Hotel, New York—Other News of
National Importance.

WASHINGTON, Feb. 25.—At the White
House it is said that the President and Mrs.
Cleveland have not completed their plans for
the last days of their stay at Washington.
They have received many invitations to
spend several days at various houses, and it
is also said they have accepted Secretary
Fairchild's offer of hospitality, and will go to
his house on Saturday, and they now expect
to go over to New York on Tuesday, the 5th
of March. Apartments have been secured at
the Victoria hotel, corner of Fifth avenue
and Twenty-ninth street, for Mr. and Mrs.
Cleveland, Mrs. Folsom, Col. and Mrs. La-
mont and children, and this party will leave
town together and spend the spring under
the same roof.

It is possible that the president will leave
the White House on Saturday, the 2d, when
he can do so quietly and without attracting
undue attention to himself and luggage. If
he should delay his departure until Monday,
the morning of the 4th, the streets being full
of people for the inauguration display, he
would find himself the observed of several
thousand observers, which would be un-
pleasant for the outgoing and retiring pre-
sident. There is little of personal and port-
able property for the Clevelands to take from
the White House, as Oak View has been made
the receptacle of most of the goods accumu-
lated since they have lived at the capital.
The party may go on Monday, as there is
nothing to detain them after the inaugura-
tion of Mr. Harrison.

The members of the cabinet cannot leave
the city until Wednesday, or not before
their successors are inducted into office and
confirmed by the senate.

The family of Secretary of the Interior
Vilas will not get to their home in Madison,
Wis., until May or later, and they will prob-
ably go to Europe for the summer.

Secretary Whitney will leave the city on
Wednesday, leaving the packing to be done
by the servants, and he will occupy their
New York house that is in readiness for
them.

The Fairchilds, too, go on to New York on
Wednesday, or soon thereafter.

TRACKS TO BE GUARDED.

Exerting Every Precaution to Make Gen-
eral Harrison's Trip Safe.

PITTSBURG, Feb. 25.—Notices have been
sent to the supervisors and section foremen
of the Pan-Handle road to have their track-
walkers be doubly vigilant in their patrols
during the passage of President-elect Harri-
son's train on this division. One man will
be stationed at every mile of track between
Pittsburg and Dennison. His duty will be to
examine the track and see that everything is
all right until the train passes. In addition
to this the watchmen will be given strict or-
ders to see that their switches are set right,
and the wrecking crews at all points along
the line will be on duty to pick up anything
that may blockade the track.

Get Your Ball Tickets Now.

WASHINGTON, Feb. 25.—The inaugural
committee has issued the following notice:
"Parties proposing to attend the inaugu-
ral ball should not rely too confidently upon
securing tickets upon their arrival here, as
the number of tickets is limited, and there
is danger that the committee may have
difficulty in supplying at the last moment
the 250,000 visitors expected to be present.
It will be much safer for those intending to
come to secure their tickets immediately by
application to the chairman of the finance
committee, Capt. George E. Lemon, Wash-
ing, D. C. Price of ball tickets, admitting
one person, \$5 each; supper tickets \$1 addi-
tional."

Raising Babies By Machinery.

PHILADELPHIA, Feb. 25.—Raising babies
of premature birth by the aid of a mechan-
ical incubator is the latest freak of medical
science at the Woman's hospital, North Col-
lege avenue and Twenty-second street. For
the first time in this city this process was
put to a practical test ten days ago, when
Florence Ryall, an eight months' child, was
wrapped in swaddling clothes and placed in
the incubator. The baby is thriving under
the process, and apparently enjoying the
best of health. She weighed at the time of
her birth about three pounds, or one-half
the weight of an average new-born child.
The incubator has raised the baby's weight
up to five pounds within ten days. She
rests in the incubator constantly, except
when taken out to receive nourishment or
is given a sponge bath. The former opera-
tion occurs three times a day and the latter
twice.

The Twenty-Third Victim.

HARTFORD, Conn., Feb. 25.—The body of
Edward Boyle has been found in the ruins of
the Park Central hotel. This makes the
twenty-third victim of the disaster. The re-
mains were discovered in the tool room un-
der the floor of the billiard room, and were
badly charred, the left leg having been burned
completely off at the thigh. Boyle was about
twenty-eight years of age, a vagrant and
slept nights wherever shelter offered.

Court House Burned.

DES MOINES, IOWA, Feb. 25.—The Adams
county court house was burned to the
ground Friday morning. The fire originated
over the county superintendent's office,
where fifty school teachers were being ex-
amined. They all escaped. The building
was insured.

Two Children Drowned.

MITCHELL, Ind., Feb. 25.—Two children of
Abner Yates were playing on the board cov-
ering of an old well Friday, when the planks
broke, and both children fell in and were
drowned.

HE PULLED HIS EAR.

A Disgraceful Scene Enacted in the Sen-
ate Committee Room.

NEW YORK, Feb. 25.—The World's corre-
spondent at Washington telegraphed the fol-
lowing story to that paper Friday night:

Senator Chandler's right ear is much larger than the left to-night. The reason is that Senator Blackburn gave it a very vigorous pulling in the senate committee room to-day. Senator Chandler would not fight, or there would certainly have been more than an enlargement of the ear.

The trouble arose from Mr. Chandler losing his temper during a discussion in the committee on Indian traderships, and calling Mr. Blackburn a slave driver. Mr. Blackburn retorted that Mr. Chandler was a scoundrel and coward, and but for his diminutive size would receive a thrashing. He then grasped Mr. Chandler by the ears and shook him until Mr. Faulkner succeeded in parting the angry senators.

BLACKBURN.

Mr. Blackburn retorted that Mr. Chandler was a scoundrel and coward, and but for his diminutive size would receive a thrashing. SENATOR CHANDLER.

STRANGE ACCIDENT.

Several Workmen Injured by the Ex-
plosion of Natural Gas in a Tunnel.

CLEVELAND, O., Feb. 25.—While at work in the new water works tunnel, which runs under Lake Erie, a distance of 675 feet, the eight workmen struck a vein of natural gas, which became ignited by the sparks from an uncovered electric wire. An explosion followed, badly burning the workmen about the face and neck.

The names of the injured are:
James Welch, foreman.
Philip Hacy, topman.
Emerson Smith, bricklayer.
Gus Hester, bricklayer.
William Longstreet, digger.
John McTigue, digger.
Patrick McNulty, digger.
John English, digger.

The men were at once removed to their homes, and medical attendance was furnished.

White Caps in Iowa.

DUBUQUE, Iowa, Feb. 25.—White Caps made their first appearance in Dubuque Thursday night. Six mounted men carrying lanterns and wearing white caps rode up to the residence of Michael Carney, seized him, bound him on a horse and galloped him out of the city. Not a word was spoken by the gang, nor any attention paid to Carney's appeals for mercy. Carney finally managed to slip off the horse and made his escape in the darkness, reaching home terribly frightened but uninjured. He has no idea why he was thus assaulted. The police are searching for the perpetrators of this villainous attack.

He Had Better Stop Drinking.

DOVER, N. H., Feb. 25.—The jury in the Barker will case has returned a verdict sustaining the will. The estate is valued at over \$1,000,000. The testator stipulated in his will that his son Hiram should receive \$5,000 per year until death; provided he does not become intoxicated in ten years he may draw \$250,000 and a like amount every succeeding ten years, but that in case he gets intoxicated he loses all. The son contested the will on the ground that his father was unduly prejudiced against him on the question of his drinking and that he was mentally incapacitated at the time of making the will.

A Great Flume Completed.

SAN DIEGO, Cal., Feb. 25.—The fifty-mile flume from a river, on Cuyamaca mountain, to this city, furnishing an inexhaustible water supply, was completed Friday, and the event was celebrated by a parade, and speeches. It cost \$900,000. There are 350 trestle bridges and eight tunnels along the line, 9,000,000 feet of lumber were used in its construction. The amount of water on hand is 2,500,000,000 gallons, enough to supply the city and county four years without renewal.

Killed and Burned.

BALTIMORE, Feb. 25.—Friday night at No. 102 Chestnut street, a house of ill-fame, James Duffy threw a kerosene lamp at Jane Harris. The blow split the woman's skull, and the burning oil set fire to her clothing. She was burned to death. Duffy is locked up.

A Michigan Blizzard.

CHEBOYGAN, Mich., Feb. 25.—The worst blizzard of the season raged here Friday, coming from the west. The snow is badly drifted. Country roads are blocked and railroad traffic is much impeded. The mercury marked 20 below zero Friday night.

The First Step.

NEW YORK, Feb. 25.—A Little Rock special to the World says: Bob Watkins has been arrested at Pine Bluff for stealing the ballot box at Plummerville. This is the first step in bringing to punishment the men connected with the murder of Clayton.

Rhode Island Prohibition Ticket.

PROVIDENCE, R. I., Feb. 25.—The State Prohibition convention Friday nominated H. H. Richardson, of Barrington, for governor; Joshua C. Brown, of Newport, for lieutenant-governor; John T. Blodgett for attorney general.

Agitating the Eight-Hour System.

NEW YORK, Feb. 25.—A large mass meeting was held at the Cooper Union Friday night, to urge the adoption of the eight-hour day system. Samuel Gompers, Professor Gunton, Edward King and others spoke.

El Paso to Be the Battleground.

NEW YORK, Feb. 25.—The World's El Paso special says that arrangements have been made to have the Sullivan-Kilrain fight take place in that city, the consideration being a purse of \$10,000.

STANLEY AGAIN.

Lieutenant Baert Returns From
Africa to Brussels.

MORE LETTERS MAY SOON BE EX-
PECTED FROM THE EXPLORER.

A Nationalist Member of Parliament Im-
prisoned for Quoting From Harrison's
Speeches—Comments on the New French
Cabinet—German Men-of-War Ordered
to Samoa—Foreign News.

BRUSSELS, Feb. 25.—Lieut. Baert, who was at Stanley Falls when Henry M. Stanley's letter to Tippoo Tib was delivered, has arrived here. He states that the messengers were closely questioned, and they confirmed the details of the letter. Lieut. Baert believes that Stanley only reached Wadelai by strenuous efforts, and that Emin Pasha relieved Stanley instead of being relieved and revictualled by him. Stanley was enabled to return to Murenia in eighty-two days, whereas the journey from Yambunga to Wadelai occupied ten months.

Baert adds that fresh letters from Stanley for England, written when Stanley departed from Murenia to rejoin Emin, arrived at Stanley Falls just as he left, and may be expected shortly. He says that Stanley will not return either via the Congo or via Zanzibar, but that he intends to capture Khartoum and wrest the Sudan from the mahdi. Baert expresses confidence in Tippoo Tib's fidelity, and says that Tippoo's refusal to accompany Stanley was due to his fears of risking the consequences of a prolonged absence from Stanley Falls.

He Used Harrison's Words.

LONDON, Feb. 25.—It is asserted in parliament circles that the principle offense for which Mr. James L. Carew, the Nationalist member for North Kildare, was arrested up in Scotland the other day, where he was making stump speeches for his friend, Sir John Kinloch, hustled off to Ireland, sentenced to four months' imprisonment, and the reading at various meetings of a speech made by President-elect Harrison at a Home Rule meeting held at Indianapolis in April, 1887.

After referring to the memorial to Mr. Gladstone which Gen. Harrison signed recently, Mr. Carew said: "Long before Gen. Harrison was a candidate for the presidency he had given clear and unmistakable expression to his opinions regarding Ireland." Mr. Carew then read the following extract from the Indianapolis speech: "I am not here to discuss particular measures of relief for Ireland. I am not here to suggest that legislation should take this or that precise form, but all here will at least agree that it should be progressive in the direction of a more liberal government for Ireland than she now has. We are not here to suggest to Great Britain that she shall concede Irish independence. The disintegration of nations is seldom accomplished by legislative enactment. When that comes it comes as the fruit and result of successful revolution."

"We are here simply to say that, in our opinion, as American citizens, what Ireland needs is not coercion, is not the constable, is not the soldier with musket and bayonet, but liberal laws tending to emancipate her people from the results of long centuries of misgovernment, and that when this British ministry starts in the direction of coercion and postpones suggestions for reform until a coercion bill has been enacted by parliament it is traveling in a wrong direction."

"It is not impossible in this age of the world to govern a people as numerous and inhabiting a country of such extent as Ireland by coercion. The period in the world's history when men might be governed by force—their inclinations coerced, their aspirations for participation in government suppressed—has passed away forever. More and more the American idea that govern-ment rests upon the consent of the governed is making its way in the world."

Mr. Carew said that upon another occasion Gen. Harrison said: "It is gratifying to know that Irishmen can make a quiet, but unyielding resistance to oppression by parliamentary methods. I would rather be William O'Brien in Tullamore jail, a martyr to free speech, than the lord lieutenant in Dublin castle."

These extracts, which were brought to Mr. Carew's notice a short time ago, have been printed in pamphlet form and distributed widely. They exerted no little influence upon the elections in Perthshire, where Mr. Carew was arrested, and will be made use of in future parliamentary contests.

Cabinet Comments.

PARIS, Feb. 25.—The Paris press receives the new cabinet coldly.

The Republique Francaise says it will demand from M. Tirard, the new prime minister, what it demanded from M. Floquet, the late premier.

The Journal Des Debats says the composition of the cabinet renders impossible a clearly defined program and a firm policy.

The Radical journals sneer at the ministry, declaring that it was drawn from the minority.

The Republican and Conservative papers openly express hostility toward the cabinet.

La Presse says the new cabinet appointments are in defiance of the wishes of the country.

M. Decrais, the French ambassador at Vienna, was offered the portfolio of foreign affairs. He declined it.

M. Spuller accepted the foreign portfolio in the cabinet after the Marquis De Noailles had refused it.

England's Defenses.

VIENNA, Feb. 25.—The Fremdenblatt, commenting on the royal speech in the English parliament says: "England has no reason to fear for any point within the British sphere. Her efforts to develop her military system do not introduce a disquieting element, because the peace powers' aims, and especially Lord Salisbury's, have always received cordial support."

The Neue Freie Presse says that Lord Salisbury's foreign policy has hitherto achieved all that England could expect. The paper

comments upon the entente cordie between England and Germany regarding colonial affairs, and says that Austria and Italy are connected with England by warm sympathies and friendly reciprocity, and fully appreciate the community of interests in maintaining the British royal power.

Occupied by Italy.

ROME, Feb. 25.—The Tribune has advices from Massowah to the effect that Italy has occupied Sabergumma, midway between Ailet and Asmara.

Ordered to Samon.

BERLIN, Feb. 25.—Four German iron-clads at Genoa have been ordered to sail for Samoa immediately.

Modifications.

LISBON, Feb. 25.—Modifications of a non-political nature have just been made in the Portuguese cabinet. Senor Carvalho, minister of finance, and Senor Navarro, minister of public works, have retired from the cabinet in full accord with their colleagues. Senor Ressano Garcia has been appointed minister of marine, Senor Gomes retaining the portfolio of foreign affairs and taking that of finance, and Senor Goeiho takes the portfolio of public works.

Tizza on Top.

PESTH, Feb. 25.—The lower house of the diet Friday passed five clauses of the army bill in the form proposed by Premier Tizza, rejecting all the Extreme Left's amendments.

Foreign Notes.

It is stated that Prince Alexander, of Batenburg, will marry the opera singer Leisinger, and thereafter reside in Italy.

The Cologne Gazette says the report that Morocco has ceded territory to Germany for a coaling station, or for any purpose, is unfounded.

Max Bernstein, of Berlin, a candidate for rabbinical orders, was sentenced to three months' imprisonment for drawing the blood of a Christian boy.

The Welsh colliers have given notice to the mine owners that they will demand an advance in wages on March 1. Strikes among the miners are feared.

Well informed persons regard the presence of the emperor and empress at Sir R. D. Morier's ball as an intentional demonstrative reply to the German press attacks.

Count Antonelli, who was sent by the Italian government with a caravan of 2,000 camels bearing gifts to King Menilik, of Shoa, was received with great cordiality by his majesty. Count Antonelli found all the Italians in Shoa in good health.

A Heroic Mother.

NEW YORK, Feb. 25.—Thursday, in a burning tenement house, Mrs. Isabella Cullen, a widow, and her sick son were cooped up on the top floor. When the flames were eating their way from below and blinding volumes of smoke made escape by the stairway impossible the frantic woman ran to the window and shrieked for help.

The firemen lowered a rope from the roof. That swaying line meant life. The mother tied it around the wasted form of her child and remained in the room while he was hoisted out of danger. No wonder the crowd cheered when the firemen carried Mrs. Cullen safely to the ground.

Snowstorm in North Carolina.

RALEIGH, N. C., Feb. 25.—The snowstorm Thursday night was the heaviest in ten years. Trains are delayed. Snow fell to the depth of from two to twelve inches in various parts of the state. The weather has moderated. The storm was general, also in Virginia, and it is feared that freshets will result from the melting of the snow.

Wreck—Eleven Lives Lost.

NORFOLK, Va., Feb. 25.—The Nova Scotia bark, Josie Troop, with a cargo of chalk and a crew of seventeen men, was wrecked at 7 o'clock Friday evening, at Chicamicon, N. C. The master and ten men were drowned. Six were saved. The vessel and cargo are a total wreck. The vessel is broken up and strewn along the beach.

James Russell Lowell's Birthday.

BOSTON, Feb. 25.—Friday was the seventieth birthday of James Russell Lowell, and in the evening he was tendered a dinner at the Tavern club, at which Professor Charles Eliot Norton, of Harvard, presided. Speeches were made by Dr. Oliver Wendell Holmes, Professor Norton and several other gentlemen.

Counterfeiter Arrested.

BIRMINGHAM, Ala., Feb. 25.—John Green, chief of a notorious gang of counterfeiter in Shelby county, was arrested and brought to jail here Friday by Federal detectives.

The Weather.

Indications—Fair, except light snow along the lakes; colder; westerly winds.

The area of unusually high barometer reported in the northwest Friday morning, rapidly extended its influence eastward, and in a less degree to the southward, bringing with it unusually cold and severe weather.

The following special temperatures were reported Friday morning below zero: Winnipeg 40; St. Vincent 42; Ft. Buford 30; Bismarck 34; Moorhead 34; St. Paul 26; La Crosse 24.

Oh, They Are So Happy.

ST. PAUL, Minn., Feb. 25.—The news of the signing by the president of the bill making four new states, was received in Minnesota with quiet satisfaction, and a telegram from Helena states that all Montana is celebrating, but Dakota is really beside herself with delight. From every hamlet large enough to have a telegraph office comes dispatches expressive of a state of jubilation bordering on insanity.

Only Faro and Straight Poker.

HELENA, Mont., Feb. 25.—The governor has signed the Hunt gambling bill, which forbids the licensing of all gambling except faro and straight poker. The object of the bill is to suppress all "brace" games of faro, stud-horse poker, keno and other unfair gambling games.

110 Weeks' Failures.

NEW YORK, Feb. 25.—Bradstreet reports 302 failures in the United States during the week, against 311 the preceding week, and 183, 163, 208 and 254 for the corresponding weeks of 1888, 1887, 1886 and 1885 respectively. The middle states had 47, New England 45, southern 79, western 104 and Pacific and territories 27. Canada had 57, an increase of 11 over the preceding week.

The farmers in the eastern end of the county are inclined not to raise much tobacco this year. If they will cultivate but little and handle carefully what they do grow, they will not regret reducing the acreage.

Mr. J. F. South, who was here last week, stated that a shoe factory started here with a capital of \$15,000 or \$20,000 would soon give employment to a large number of boys and girls, at wages ranging from \$7 to \$10 and \$11 a week. Let those who are willing to invest money in such an enterprise get together and start the ball rolling.

There will be thirty-nine Republicans and thirty-seven Democrats in the next United States Senate, while the House will have a Republican majority of not less than three. After the 4th of March they will have full power for the next two years and Democrats will see that their opponents are held responsible for the management of affairs at Washington.

COLONEL W. W. DUDLEY, the "Boodler," has made it a point to keep away from Indiana ever since his "blocks-of-five" circular got into the hands of the Democrats during the last campaign. He has been an exile from home to prevent arrest. Our latest information, however, indicates that he must appear soon at Indianapolis. A warrant has been issued for him.

PENDLETON COUNTY has nearly ninety miles of turnpike under contract, and the Falmouth Guide says the time is not far off when the county will be over \$200,000 in debt. Turnpikes are very necessary for the development of a country, but it is not a wise move to rush "head over heels" in debt to build them. "Pay as you build" is a good idea for counties to adopt in this matter.

THERE have been over 300,000 divorces granted in the United States in the past twenty years, and statistics show there has been a steady increase in such business. The Louisville Times feels called on to remark that "either courting or the courts must be a failure." Of the 300,000 and more decrees, over 10,000 were granted in Kentucky. Illinois leads with 36,072, Ohio next with 26,367 and Indiana third with 25,193.

MR. WANAMAKER, who is slated for General Harrison's Postmaster General, has been trying to explain how he happened to raise a big corruption fund for the Republicans in the last campaign. This is only making a bad matter worse. No explanation he could make would lessen the offense. He indirectly admits he knew that the money was to be used for corruption and bribery. If Mr. Wanamaker hadn't raised all this "boodle" he talks about, it is extremely doubtful whether he ever would have been thought of for a cabinet position.

Now is a good time for some active, energetic fellows to pitch in and start a shoe factory here in Maysville. In our talks on the subject, every citizen approached has expressed his belief that such an enterprise will prove a profitable one. Several have expressed a willingness to invest money in the business. Let two or three or four of these parties get together and form a partnership, and they can soon have a factory in full operation. It is not necessary to organize a stock company. The business can be better managed where the parties interested are present and have a personal supervision of things.

TRAIN ROBBERS

Employ a New and Highly Successful Method

BY WHICH THEY SECURE THE CONTENTS OF AN EXPRESS SAFE.

Train on the Central Pacific Held Up Near Pixley, California, and Dynamite Bombs Exploded Under the Express Car—One Passenger Instantly Killed and Another Wounded.

DELANO, Cal., Feb. 25.—As train No. 17 left Pixley Friday evening five men boarded it. Two went on the engine and covered the engineer and fireman with revolvers. When about two miles from the station the train was brought to a stop, and three other men entered the express car and ordered the messenger to open the box, covering him with revolvers.

Dynamite bombs were exploded under the car, and during the excitement several passengers ran toward the front. Two of them were shot. E. S. Bently, of Modesto, was probably fatally wounded, and Charles Galt, of Poso, was killed instantly. The train ran back to Pixley, where the news was left. The passenger coaches were not molested.

Another account states that but two men were concerned in the robbery, and that while one remained on the engine the other made his way to the express car, and by exploding bombs under to car so frightened the messengers that they speedily opened the doors. Bently, who was probably fatally wounded, is deputy constable here. The amount secured by the robbers is unknown. A posse will pursue them from here.

A MESSENGER BOY'S NERVE

Saves One of Mrs. President-Elect Harrison's Dresses From Being Stolen.

INDIANAPOLIS, Feb. 25.—Robert Riley, messenger boy, had a desperate struggle with a negro last evening in an attempt to save one of Mrs. Harrison's dresses. The dress was placed in a large box and given to the boy to deliver. Just as he turned First and Delaware streets corner, the negro made a grab for the box and jerked it out of the lad's hands.

The latter seized the negro's coat and held on to him screaming at the top of his voice, as the negro dragged him along. Recovering his feet the lad secured another hold upon the box, and continued his cries until the negro let go of the box and ran. He did not mention his experience at the Harrison residence, and the future lady of the White House does not yet know the peril in which one of her darling dresses was placed.

OBJECT TO CHINESE

Miners in British Columbia—Fears of Trouble.

VICTORIA, B. C., Feb. 25.—All the white miners, to the number of several hundred, employed in the Dunsuir coal mines at Comox have struck. The trouble arose from the employment of some Chinese at the mines. The miners demanded that the Chinese be discharged, which was refused.

The whites are drinking and carousing, and threaten to burn the Chinese quarter and slaughter the Chinese. The local militia is preparing to move to the scene of trouble, and there are grave fears of bloodshed.

Negro Lynched in Mississippi.

NEW ORLEANS, Feb. 25.—A special to the Times-Democrat from Pt. Gibson, Miss., says: A squad of men from Vicksburg came here Thursday night, and Friday morning they boarded a south bound train and, flourishing pistols, took Wesley Thomas, colored, from deputy sheriffs who were conveying him to Natchez for safe keeping. After getting possession of the prisoner the squad started with him in the direction of Vicksburg, and it is understood, lynched him on the edge of Big Black swamp. Thomas had attempted to outrage a young lady in Vicksburg last Wednesday evening.

Vicksburg Veterans.

INDIANAPOLIS, Ind., Feb. 25.—A temporary organization of the new army "Society of Vicksburg" was effected Friday by electing Governor A. P. Hovey president of the society until the regular meeting in May next. There were about one hundred veterans present at the meeting, which was called to order by Gen. R. A. Cameron, of Denver. Resolutions were adopted demanding a service pension law and favoring the payment of pension on a gold basis.

Two Carloads of Beer Seized.

IOWA CITY, Iowa, Feb. 25.—The sheriff of Johnson county Friday seized, at the Burlington depot, two carloads of beer, and removed it to a storehouse to await the result of a trial. A number of search warrants have been executed against the supposed saloons running in a quiet way, and, as a result, every place in the city has closed up, and the town is under absolute prohibition except as to individual supplies.

A Distinguished Gathering.

One day last week one of his sons discovered gold, silver and greenbacks to the amount of \$4,238. It had evidently been buried by the old man years ago but had been forgotten by him. The whole amount weighed 52 pounds and was turned over to lawyer Scott who deposited it in the bank."

TATE'S ASSETS.

They Will Cut His Shortage Down to About \$150,000—Something Concerning the Law.

A special from Frankfort says: "State Auditor Hewitt Friday, upon the orders of the Circuit Court during its present term, turned into the State Treasury \$29,547.69, as a part of the proceeds of the property and papers belonging to the late Treasurer James W. Tate.

"This sum has been placed to the credit of the Tate defalcation, and with the sums heretofore credited to this account will aggregate a credit of more than \$60,000.

"There are other stocks and property belonging to Tate, which the Circuit Court directed to be sold, from which, it is believed, the State will realize not less than \$9,000 or \$10,000.

"When all the money arising from the property, stocks, notes, I. O. U's and other papers has been collected and placed to the credit of Tate, the actual shortage in his accounts will not be more than \$150,000.

"In this connection it may not be uninteresting to say that the State Treasurer, during the returns of the heavy collections of revenue each year, will receive, through the Auditor of Public Accounts, each month of that period, as much as \$500,000, or more than three times the total amount of Tate's shortage, which covers a period of ten years. 'Now,' as a gentleman remarked the other day, 'the State may make all the laws it pleases to hedge the custodian of her funds, blame any one and every one to any extent culpable for violation of the laws, hold as much good security in the way of bond for faithful performance of duty as she may choose, and, despite it all, unless the Treasurer himself is honest, he can get away with more than twice the amount charged against Tate in the whole course of his official career. The checks are often turned over to the Treasurer for \$100,000 and \$200,000, which he could manipulate to his own purpose, and then hie to Canada before the end of the month, or time for settlement provided by law between the Auditor and Treasurer. Bonds, it would appear from the verdict in the Tate case in the Circuit Court, are worthless as a security against fraud, unless the Court of Appeals should reverse that decision and laws are ineffectual to keep Treasurers, when so disposed, from committing embezzlement."

When the road shall have been completed from Frankfort to Georgetown, a distance of eighteen miles, bonds to the extent of \$25,000 per mile on that portion of the road will be marketed, and with the aid of Scott County's subscription, which will then be attainable, it will then be completed to Paris. That portion of the road from Georgetown to Paris will then be bonded, and with the aid of Bourbon's subscription it will then be pushed east to Bath County, and thence to Virginia in a like manner.

THE PUBLIC SCHOOLS.

Notes and Comments by Superintendent Galbraith for 1888-89.

NO. 13—CHARLESTON BOTTOM.

There are 14 pupils on roll, with an average attendance of seven. Thomas Norton and Lena Fristoe have lost no time.

The trustees are Silas Robinson, Chas. Peers and S. T. Fristoe. Mr. Fristoe has visited the school.

The school-house is not in good condition and there is now a move on foot to replace it with a new one. The report of the teacher shows very little interest on the part of patrons. This is no doubt, in a measure, owing to the defective condition of the school house.

Miss Anna L. Fristoe has charge of this school. She is a teacher of experience, and well qualified for her duties. But she has been greatly disheartened in her work this year by the irregular attendance of her pupils.

She writes: "Though I have tried very hard to do my duty and hope some good has been done, yet the attendance has been so irregular that I have fallen far short of my aim." * * * While I have used the written work in all of my classes, there has not been that uniformity that I desired. The patrons were so negligent about furnishing paper for the pupils.

NO. 57—PARRY.

There are thirty pupils on roll, with an average of 25.

The trustees are Horace Clift, Thomas H. Thompson, Thomas Murphy. Mr. Thompson has visited the school. The house, like the Irishman's school, is "older than it's good."

The teacher, Miss Willa Burgoyne, used the written work and succeeded in interesting the pupils in it. Her report of the school is good and speaks for itself: "Some of the children have not attended as regularly as they should, yet the general progress has been very satisfactory. I think if the parents would manifest more interest in the school it would prove more interesting to the children, and certainly more encouraging to the teacher."

er. I use the written method, think it an advantage. In this too, some of the parents are negligent, not furnishing their children with paper. My pupils have reached that point at which I must reluctantly leave them. I would like to go on further with them in their studies. The house is small, but comfortable."

The Only Perfect Remedy

For habitual constipation, dyspepsia, and kindred ills is the famous California liquid fruit remedy, Syrup of Figs. It strengthens as well as cleanses the system, it is easily taken, and perfectly harmless. For sale in 50 cents and \$1.00 bottles.

OUR NEIGHBORS.

MAYS LICK.

Martin Fay lost one of his valuable work horses last week, worth perhaps \$150. It went dead.

If the curious want to know why Mr. Tindler left the Stonewall House, let them ask him. He will tell them.

John T. Worthington returned from Vanceburg last week and spoke in glowing terms of the new railroad up the river.

Mrs. Susan Bedford is home again after a pleasant visit of several days at the hospitable home of Dr. Clarke, at Vanceburg.

There will be any amount of movers the coming spring. Already quite a number have passed through this place for new homes.
